

**Submittee:** Kalle Karu

**Date Submitted:** 2015-04-09 15:07

**Title:** Bellingham Algebraic Geometry Seminar

**Event Type:** Conference-Workshop

---

**Location:**

Bellingham, WA, USA

---

**Dates:**

April 4, 2015

---

**Topic:**

Algebraic Geometry

---

**Methodology:**

3 lectures

---

**Objectives Achieved:**

We heard 3 lectures on various topics of algebraic geometry.

---

**Scientific Highlights:**

We had an interesting meeting of algebraic geometry people from UBC, SFU, UW and Western Washington University.

---

**Organizers:**

Kovacs, Sandor, Mathematics, University of Washington //

Lieblich, Max, Mathematics, University of Washington //

Carrell, James, Mathematics, University of British Columbia //

Karu, Kalle, Mathematics, University of British Columbia //

---

**Speakers:**

Mattia Talpo, Mathematics, UBC, "Infinite root stacks of log schemes" //

Nathan Ilten, Mathematics, SFU, "Frobenius Splittings of Varieties" //

Bianca Viray, Mathematics, UW, "Enriques surfaces" //

---
