Emerging Aboriginal Scholars Summer Program

Independent Directed Studies

Start working on your future today!

Five week summer program provided by the Pacific Institute for Mathematical Science (PIMS) and the First Nations House of Learning (FNHL) at the University of British Columbia
Outline

Congratulations for enrolling in this five week summer program.

Would you like to earn 4 credits towards your High School graduation?

You can earn 4 IDS credits (considered an elective) by completing the following:

</tr>
<tr>
<td>Present your portfolio to partners invested in helping you meet your goals</td>
<td>15%</td>
</tr>
</tbody>
</table>

Journal

The intention of keeping a journal is to help you to identify and understand your strengths, weaknesses and interests. While your journal is personal to you, you should use it to initiate materials for your portfolio.

Your journal entries may include:

- A brief outline of what you did that day in class or at work experience (perhaps in point form).
- What did you find easy, interesting and/or challenging?
- Did you learn anything completely new?
- What were you most successful at today? What was enjoyable? What was challenging?
- Did you learn anything new today (eg, safety procedures, a particular employee’s role/responsibilities, how to operate a piece of equipment)?
- Are there any questions you would like to ask tomorrow?
- How might these activities be connected to future education and/or employment plans?

Please feel free to contact me at any time via email at aboriginalscholars.ids@gmail.com
Portfolio

The portfolio is worth 35% of your IDS credits.

Your portfolio should be a personal record of your experiences while attending this program, and how these experiences may help you to plan your future.

You may produce an electronic or hard copy of your portfolio.

So what should you include in your portfolio?

Reflect on all that you have done this summer and connect it to your post-secondary plans and goals. How might you meet some of your goals?

Work experience! Did you enjoy it? Hate it? Did it help you decide what you would like to do in the future? (Or definitely not do?) What was the most boring bit? Most surprising? Most enjoyable? Funniest moment? What did you learn about yourself?

One Math and one English assignment from your classes.

What did you learn, or find interesting, from the workshop on understanding First Nations issues with regard to post-secondary education and careers, or any other similar workshop or lecture you have attended?

Some pages, or copies of pages/comments from your journal.

Is there someone who inspires you with regard to your future? Tell us about them.

Lots of pictures! Ask someone to take pictures of you completing various tasks in the classroom and on work experience and with people you meet. Also take pictures of others who are helping you (ask for permission first).
Post-secondary plans

So many choices! Sometimes it can be difficult to know where to start!

This summer program provides a great opportunity to start thinking about your goals for the future

These four resources are a great way to start.
BC Grad Planner – choosing courses in grades 11 and 12

http://www.bced.gov.bc.ca/graduation/docs/grad_planner.pdf

The BC Grad Planner includes information about:

- In-School Course Credits
- Other options for gaining credits, such as IDS
- In-School Career Preparation Programs
- Financing Your Future

It suggests that students may want to use Focus Areas to help plan the courses they wish to take in high school and to research post-secondary programs. The Focus Area(s) should be based on your own interests and aptitudes and include one or more of the following:

- Business and Applied Business
- Fine Arts, Design, and Media
- Fitness and Recreation
- Health and Human Services
- Liberal Arts and Humanities
- Science and Applied Science
- Tourism, Hospitality, and Foods
- Trades and Technology

BC Education Planner – post-secondary career and education options

http://www.educationplanner.ca/

The BC Education Planner is a publicly funded resource that allows you to compare post-secondary programs in BC and helps you make well-informed decisions about your education and career options. You can use Focus Areas to direct your research on this site.
**Scholarships and Awards**

www.scholarshipscanada.com

Educate yourself about scholarships and rewards.

- Do you know the difference between a bursary and a scholarship?
- Do you know what percentage of scholarships require an academic average?
- How many scholarships and bursaries are for aboriginal students only?
- Does your band provide any scholarships?

**Aboriginal education**

http://www.aucc.ca/policy-issues/aboriginal-education/

Below are two of their online publications that you might find useful:

Creating opportunities in education for Aboriginal students

A summary of university programs and services aimed at Aboriginal students.

Inform yourself – find some facts and figures about aboriginal students and education.

Aboriginal student resources

Programs and services offered by universities to Aboriginal students.
During and after your work experience, use the following four pages and consider some or all of the following questions.

- What skills have I used?
- What motivated or demotivated me about the work?
- Which bits did I find interesting or boring?
- Did the organisation and work fit with my values?
- Did I enjoy the work?
- What was the culture of the organisation like?
- How would I have changed the experience to make it just right for me?
- What does this mean for my future career choices?

You might like to take the pages to your work experience and ask someone there to help you complete them.
