Title: Alberta Colleges Math Conf and North-South Dialogue

Event Type: Conference-Workshop

Location:

University of Calgary

Dates:

May 2-3, 2013

Topic:

Alberta Colleges Math Conf - Pedagogical issues in mathematics North-South Dialogue - Research topics in mathematics

Methodology:

Five Invited Lectures and many 20-30 minute lectures

Objectives Achieved:

In addition to the usual objectives of discussing pedagogical issues and research issues, there was an open discussion of the consequences of the current Alberta budget (8% cut to higher education) in the various colleges and universities in the province.

Scientific Highlights:

On the research side, the quality and diversity of the research in the mathematical sciences in the province of Alberta was strongly in evidence.

Organizers:

Akhunov, Timur, Mathematics & Statistics, U of Calgary// Estabrooks, Manny, Mathematics, Red Deer College// Safouhi, Hassan, Mathematics and Statistics, U of Alberta// Zvengrowski, Peter (Principal Organizer), Mathematics & Statistics, U of Calgary//

Speakers:

Please see the attached Programme file which lists all speakers and titles and abstracts, plus brief biographies of the plenary speakers
