Title: Conference on Geometric Functional Analysis in Honour of Nicole Tomczak-Jaegermann
Event Type: Conference-Workshop

Location:
University of Alberta, Edmonton, AB, Canada

Dates:
May 16 -- 20, 2016

Topic:
Functional Analysis, Banach Space Theory, Asymptotic Geometric Analysis, Random Matrices.

Methodology:
Lectures, Poster session, Informal Discussions.

Objectives Achieved:
Lecturers presented their recent results and ongoing projects. Graduate students presented their work during the poster session. Researchers started new and continued existing collaboration.

Organizers:
Local organizers:
