Title: Fall 2011 joint SFU-UBC graduate student seminar in Statistics

Event Type: Lecture-Seminar-Series

Location:

room 7000 (Earl & Jennie Lohn Policy Room) at SFU Harbour Centre, Vancouver, BC.

Dates:

Saturday September 17th, 2011.

Topic:

Statistics

Methodology:

3 students and one faculty member from each of the Statistics Departments at SFU and UBC gave a talk, for a total of 8 presentations.

Objectives Achieved:

Students were able to show their work and practice their presentation skills, as well as to see other students' research. Students also received valuable advice from the material presented by the faculty members. A lot of interaction and networking by students from both SFU and UBC was achieved, as well as with the professors present.

Organizers:

Rodriguez, Jorge, Statistics & Actuarial Science, Simon Fraser University.

Speakers:
