

Math Circles Workshops for Elementary School Students at UBC

Students of grades 4 to 7 are invited to challenge and develop their thinking and creativity skills at the Math Circle Workshops.

This is an enrichment program for students organized by the faculty members of the Department of Mathematics at the University of British Columbia and the Pacific Institute for the Mathematical Sciences.

The goal of these workshops is to convey to students the importance of mathematics in the real world as well as how much fun mathematics can be. We want to get the students excited about mathematics and to give them a setting that encourages them to become passionate about this subject.

The Math Circle Workshops will commence on September 26, 2022 and will continue through April, 2023. The sessions take place on **Monday evenings from 4:30 to 6:00 pm, at the SWING Building Room 205 located at: 2175 West Mall.**
