

**Submittee:** Marcelo Laca

**Date Submitted:** 2010-09-14 13:42

**Title:** Summer School on Operator Algebras and Non-commutative Geometry

**Event Type:** Summer-School

---

**Location:**

University of Victoria

---

**Dates:**

Start Date: 06/14/2010 End Date: 06/25/2010

---

**Topic:**

The structure and classification of nuclear  $C^*$ -algebras, KK-theory and the Baum-Connes conjecture,  $C^*$ -dynamical systems from number theory

---

**Methodology:**

Three one-hour lectures per day, followed by a 1.5 hour discussion/problem sessions

---

**Organizers:**

Emerson, Heath, Mathematics and Statistics, University of Victoria // Giordano, Thierry, Mathematics and Statistics, University of Ottawa // Laca, Marcelo, Mathematics and Statistics, University of Victoria // Putnam, Ian, Mathematics and Statistics, University of Victoria //

---

**Speakers:**

Brown, Nate, (Penn State) // Emerson, Heath, (Victoria) // Laca, Marcelo, (Victoria) // Meyer, Ralf, (Goettingen) // Neshveyev, Sergey, (Oslo) // Toms, Andrew, (Purdue) //
