# 2012 AMSI/ANU/UQ Winter School

## on Geometric Partial Differential Equations

co-sponsored by PIMS and BICMR

The winter school is designed for graduate students and postdoctoral fellows. Main topics will focus on recent progress in non-linear partial differential equations and their applications. In particular, the program will emphasise three interlocking themes:

- Nonlinear elliptic equations and their applications to geometry and optimal transportation
- Geometric flows and applications
- Harmonic maps and applications

Advanced courses		Instructional Courses
<b>Robert McCann</b> (Toronto)	<b>Michael Struwe</b> (ETH-Zurich)	<b>Ben Andrews</b> (ANU)
<b>Tristan Rivière</b> (ETH-Zurich)	<b>Gang Tian</b> (Princeton/ Beijing)	<b>John Urbas</b> (ANU)
<b>Richard Schoen</b> (Stanford)	<b>Neil Trudinger</b> (ANU)	<b>Min-Chun Hong</b> (UQ)
<b>Gerhard Huisken</b> (Albert Einstein Institute)	<b>Xu-Jia Wang</b> (ANU)	
<b>James Sethian</b> (University of California, Berkeley)
