

Miniconference on Combinatorial Models

August 13, 2012
K9509 SFU

9:00

Karen Yeats: *Combinatorics and QFT:
Hopf algebras, recurrences, and denominators*

9:45

Marni Mishna, *Applied Analytic Combinatorics:
Random generation and enumeration*

10:30

Coffee break

11:00

Andrew Rechnitzer, *Approximate enumeration*

11:45

Chris Soteros, *Combinatorics and Polymer Modelling:
Asymptotics, random generation and statistical analysis*

12:30

Lunch

2:00

Open problem session

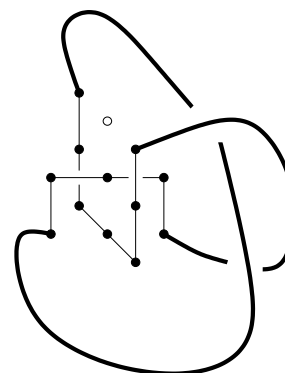

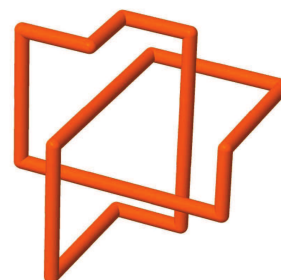

3:30

Coffee break

4:00

Students: debriefing and networking session
Faculty: discussion on student sharing and funding

6:00

Supported by PIMS

Pacific Institute *for the*
Mathematical Sciences
